Set in the traditional village of Pererenan and only a short stroll from the sands of Echo Beach and its famous surf breaks, seductively exotic Villa Hansa offers the standard of facilities one would expect of five star accommodation but within the natural beauty of traditional wooden buildings.

Managed by Elite Havens, Villa Hansa comprises a series of seven charming lodging units divided into four main sections; a master suite, 2 gladak rooms, 2 riverview suites and 2 pool suites. The master suite consists of two antique Javanese Joglo houses tastefully adapted using contemporary glass under an exquisite and a rare trapezium roof, while the gladak rooms are two traditional wooden 'gladak'-shaped traditional houses with timber shuttered windows and raised verandas. All rooms

are equipped with every modern amenity to ensure that guests want for nothing during their stay. The villa also provides a range of top-notch in-house facilities; including two swimming pools, dining areas, a barbecue and billiard balé, yoga studio, garden grottos and all fully supported by a team of professional staff too look after every need.
